

Will the investment in HR and OD measures be worthwhile?

The challenge

- The Business Case Calculator is your digital assistant for creating a business case for your HR and OD measures. Facts and data can be put into right context. You decide on the possibilities and the measures to be taken. Analyze the hard facts you require to obtain investment approval from management.

Our approach

- You calculate the break-even and return on investment of "soft" measures in HR and OD.
- You will receive a meaningful report, which can be exported as a PDF file with various scenarios.
- Convincing data with appealing graphics.
- Usable for multiple business cases.

Our service (SAAS)

- Hybrid App (iOS/Android)/web app.
- "Bring you own device" (BYOD) available.
- To meet your specific business requirements, content and layout changes can be made.
