Smart Handout®

Administration, editing and distribution of presentations and training materials in a fully digital environment

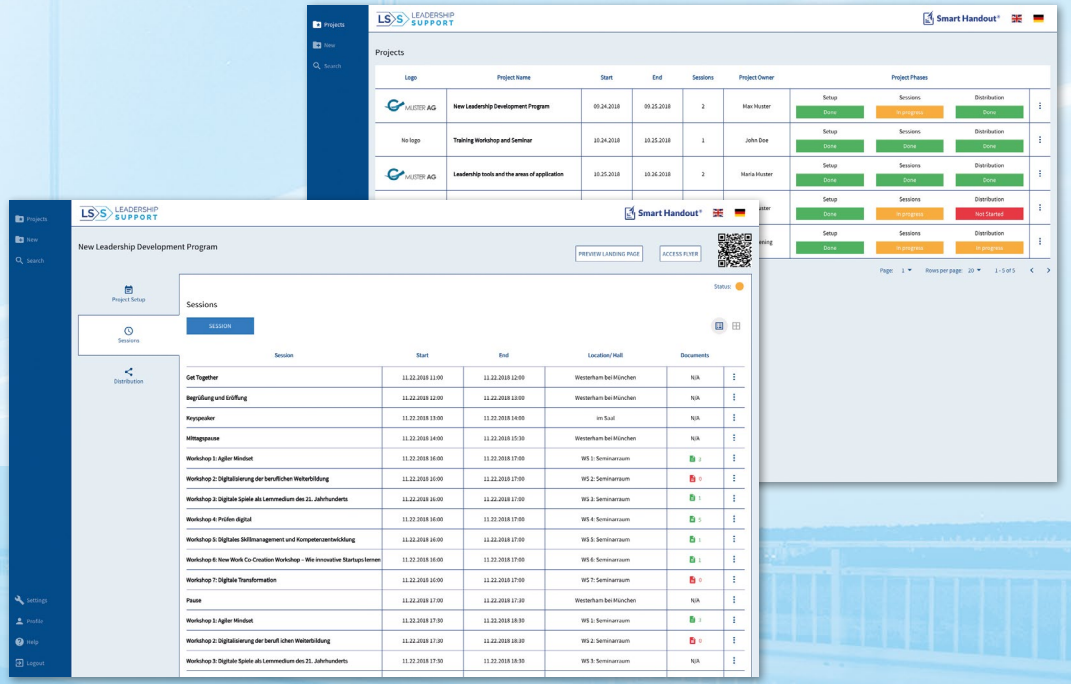

LS-S LEADERSHIP SUPPORT

What is Smart Handout and where do we use it?

Smart Handout is a web-based platform that allows fast and easy distribution of presentations and training materials for seminars, meetings and conferences digitally. The platform fully digitizes the organizational process around the event, saving time and costs. Smart Handout optimizes the complex and cumbersome process of organizing materials and participants for an event or training.

How does it work?

The product supports the whole process of the event: from sending invitations to contacting the participants with additional materials and photos after the event. All materials are collected in one place in a digital format, arranged by sessions or topics.

Key benefits of the Smart Handout

- Smart Handout reduces the cost of printing training materials and saves time for their preparation and distribution
- The platform offers a simplified process of administering a training or event
- Materials remain accessible from any device and at any time
- Environmental care: saves a huge amount of paper
